ST MARTIN'S COLLEGE

Our summer programme will be held at Chiswick House School.
Older learners will have various sports sessions at St Martin's College.

ABOUT US

SUMMER SCHOOL TEAM

We are proud to launch this year's summer school programme that will focus on the theme of "Time Travel". Summer 2023 promises to be an amusing time of exploration, adventure and discovery for our Chiswick House School pupils as they travel to the past and future, embarking on journeys that will provide exciting and fun learning opportunities throughout. This year's programme will develop an understanding of how the past shapes our present and our future through the wide variety of activities, and outings in the Junior Years, that will provide a national and international perspective into who we are and tap into an essential 21st century competence – that of cultural competence! Learners will be tasked with creative targets that entice them to explore futuristic digital tools, such as virtual reality kits and artificial intelligence, that provide a glimpse of what the future will look like. As part of our CHS summer community, your child is sure to have a memorable summer to look back on...in the future!
