

CHISWICK HOUSE SCHOOL

EXTRA- CURRICULAR ACTIVITIES PROGRAMME 2023/2024

SEMESTER 2

Feb 2024 to June 2024

For further information please contact Diane Erasmi, Extra-Curricular Programme Coordinator
on dianeerasmi@chs.edu.mt

IMPORTANT INFORMATION

- Semester 2, covers the period from the 15th of February until the 21st of June, 2024. Registrations are to be submitted by Friday 26th January, 2024. Kindly note that activities are only open to the Chiswick House School community. Registrations will only be accepted with advance payments.
- Extra-Curricular activities are organised by third parties. Registration together with payment is to be made directly with the activity organiser as per details provided within this programme. Said third parties assume all risk and responsibility for such activities and any matters related to a pupil's attendance and participation in such activities, are to be addressed directly with the organisers.
- If the requisite minimum number of applicants for an activity is not met, the activity will be cancelled. In that case, payments will be refunded. Furthermore, the school reserves the right to cancel any activity when it is deemed that such action is necessary in the best interest of the children. In such a case, a refund will also be granted.
- Extra-Curricular activities are held between 14:45 and 15:45hrs for Level 1 to Level 5 pupils. Children will be supervised by the activity organiser between 14:30 and 14:45hrs.
- During half days in June, activities for Level 1 to Level 5 pupils will be held from 12:45 to 13:45hrs. Children will be supervised by the activity organiser between 12:30 and 13:45hrs.
- Extra-Curricular activities for EY1 and EY2 pupils are held between 14:00 and 15:00hrs.
- During half days in June, activities for EY1 and EY2 pupils will be held from 12:30 to 13:30hrs.
- Children must be collected on time. No supervision is provided once the session is over.
- Extra-Curricular activities are held on school days only. Therefore, on public and school holidays, activities will not take place. Please refer to the scheduled activity dates overleaf.
- Pupils who are assigned to a Learning Support Educator (LSE) during school hours, may require the same support during extra-curricular activities held at Chiswick House School after school hours. It is imperative that this is brought to the attention of the activity organiser upon registration for any activity so that a way forward can be discussed. Costs related to the Learning Support Educator during extra-curricular activities will be borne by the parents/guardians.
- Parents and guardians are not allowed inside the school during any of the activities.
- On days when pupils have Extra-Curricular sports activities such as Handball, Hockey, Sports for Growth and Taekwondo, children may come to school in their P.E. kit.
- The Extra-Curricular programme for Semester 1 ends on Friday, 9th February. A new application form would need to be submitted should children wish to participate in the programme for Semester 2.
- Parents are requested to inform class teachers of any changes in Extra-Curricular activities for Semester 2 and consequently update the online collection form to reflect the said changes as of the 15th of February 2024.

TIMETABLE

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
ARTHUR'S STUDIO – ART CLASSES BY SIMONE STILON					L1 & L2 14:30 - 15:45 L3 - L5 14:30 - 15:45
HANDBALL		L1 & L5 14:30 – 15:45		L1 – L5 14:30 – 15:45	
HOCKEY			L1 - L3 14:30 - 15:45		
NUTTY SCIENTISTS		L1 - L5 14:30 - 15:45			L1 - L5 14:30 - 15:45
ROBOCOACH			L3 - L5 14:30 - 15:45	L1 & L2 14:30 - 15:45	EY1 & EY2 14:00 - 15:00

MAY 2024	3rd	10th	17th	24th	31st
JUNE 2024	14th	21st	-	-	-

We provide a professional and excellent standard of art education to all our students.

Chiswick House School

Friday • 2.30pm - 3.45pm • Level: 1 & 2

Friday • 2.30pm - 3.45pm • Level: 3 - 5

**To register kindly write to simonestilontabone@gmail.com
or call 9989 1791**

2X WEEK
€250
PER SEMESTER

1X WEEK
€180
PER SEMESTER

AFTER SCHOOL HANDBALL

Tuesday Level 1-5
Thursday: Level 1-5

2:30 - 3:45pm

Fun sessions

Focusing on physical literacy

Sessions held by qualified coaches

Opportunity to participate in handball festivals during weekends

Nutty Scientists

A wacky way to make science stick.

NUTTY SCIENTISTS is a worldwide, educational franchise with an award-winning methodology and 20 years experience. In the sessions, children become scientists and do hands-on activities.

How kids learn

KIDS LEARN BY DOING

"I hear and I forget. I see and I remember. I do and I understand" - Confucius.

We use interactive, hands-on methods to teach a variety of scientific concepts.

What we teach

Think S.T.E.A.M.

We teach in the form of workshops related to science, incorporating aspects of technology, engineering, art and mathematics (STEAM)

Why we're different

A world VIEW

No one else in the world teaches quite like we do. Our programs draw from the expertise of renowned scientists from all corners of the globe.

Our Programs:

Themes:

Science - Robotics - Health & Nutrition
Environment - Technology & Engineering
Preschool Programs - Prevention Programs

This semester join us at Chiswick House School for a wonderful Science Adventure! Nutty Scientists offers entertaining and wacky, hands-on educational activities led by professional staff. Learn about Physics, Chemistry, Biology, Engineering, Forensic Science, Earth Science, Astronomy, Zoology, Psychology and much more while having fun.

2nd semester: 15th February 2024 until the 21st June 2024

TUESDAY from 14:30 – 15:45 - 14 sessions @ €210

or

FRIDAY from 14:30 – 15:45 - 15 sessions @ €225

All material except for some household items will be provided.

To inquire about the programme and to enroll, please contact us on 79257175

or email on info@nuttyscientists.mt or

register on <https://www.nuttyscientists.mt/e-registration>

Awarded Curriculum

Nutty Scientists Malta
FB: Nutty Scientists - Malta
Nutty Scientists DQSE Reg. No. 12465

robocoach brings science, technology, engineering, arts and math topics to kids through a fun, challenging and hands-on approach.

Our range of computational thinking courses for kids vary from basic principles in logic and programming to more challenging, problem-solving sessions within the highly engaging world of robotics.

All our courses/workshops provide learners with the opportunity to think logically and critically to build, programme, and overcome STEAM based challenges, whilst making friends and developing communication skills.

Our courses expose students to various robotic gadgets, including but not limited to, BeCrea Scottie Go!, Sphero, Matatlab, Engino, Kano, robowunderkind and VEX Robotics, depending on specific course being followed.

During our courses, students will follow a varied programme that will not overlap one year to another as the course will change on a yearly basis to adapt to the students entrusted to us.

Robo Young Discoverers

A course for our youngest learners! Pupils start to build simple models in preparation for Robotics. They will develop an understanding that following a sequence of instructions or commands can help perform simple tasks.

Using easy to assemble models and compatible programs and applications they will enter the world of robotics with curiosity to discover more. The robotic gadgets used on the course will introduce the basic simple concepts of coding and programming to this young generation.

Price for Semester 2: February to June: €180

YEAR GROUPS
EY1, EY2

FREQUENCY
Once Weekly

TIME
14:00 to 15:00

COURSE DAY
Friday

Robo Explorers

Students will step into the world of robotics and computational thinking through fun and interactive activities. Through this course, students will learn the basic concepts of programming and will start to understand that coding can provide solutions.

They will use easy to assemble models, compatible programs and applications to engage in different challenges to find solutions to tasks presented. Motivating every individual along the way.

Price for Semester 2: February to June: €180

YEAR GROUPS
L1, L2

FREQUENCY
Once Weekly

TIME
14:30 to 15:45

COURSE DAY
Thursday

Robo Developers

Experimenting through robotics and computational thinking, students will approach several fun and challenging tasks. During this course they will breakdown problems and tasks into simpler understandable solutions.

Using different robots, models and devices they will create a program to perform an action. They will experiment, investigate and discover the scientific notion therefore stimulating their curiosity further.
